Quarterly Report

For the period ended 30 June 2021

Update on Activities

Highlights for the Quarter

- ◆ Preparations for the Bookara 3D Seismic Survey continue as a joint venture managed by Key Petroleum Limited (Key or Company) with the survey area and design finalised during the quarter. The acquisition window is planned for the fourth quarter of this year, following harvesting of cropped lands within the survey area. The work is to be fully funded by Triangle Energy (Global) Limited in accordance with the current Farmout Agreement.
- ◆ Key continues to work with the regulator, Department of Mines, Industry Regulation and Safety (DMIRS), to complete the Sale and Purchase Agreement for its remaining equity in EP 437 and L7 (Sale Agreement) to Triangle Energy signed on 28 January 2021. Completion of the agreement requires DMIRS to approve the transfer of title. A non-refundable upfront payment of \$200,000 was received by Key with the remaining \$400,000 and a 5% overriding production royalty in each permit to be received once the sale is completed.
- ◆ Key continued to monitor COVID-19 pandemic movement restrictions particularly in relation to planning for its Cooper Eromanga Basin commitments. The Company intends to revert to previously planned operational schedules once conditions stabilise.
- ◆ Key entered negotiations with several parties as part of a forward thinking strategy to utilise the resource potential within Key's Cooper Eromanga Basin assets to complement Australia's efforts to accelerate the development and commercialisation of new and emerging low emissions technologies.

Activities for the Upcoming Quarter

- ◆ Key commenced a review of its Cooper Eromanga Basin exploration portfolio in July. COVID-19 movement restrictions continue to impact progress with planning for field activities associated with Key's commitments.
- ◆ Advanced access negotiations as part of planning for the Bookara 3D Survey, which will cover a broad area within L7 and extend west into EP 437.
- ◆ Completion of the sale of L7 and EP 437 on DMIRS approval for the transfer of Key's equities and operatorship.
- ◆ Continued monitoring of COVID-19 pandemic and associated restrictions with a view to revert to previously planned operational schedules once conditions stabilise.
