Quarterly Report

For the period ended 30 June 2024

Update on Activities

Highlights for the Quarter

- ◆ The Queensland Government has introduced changes aimed at strengthening protections for the rivers and floodplains of the Queensland Lake Eyre Basin (LEB). This decision has implications for our ATP 920 and ATP 924 tenures. Following discussions with the Queensland Government and receiving boundary maps (see Figure 1) outlining the impact of the LEB exclusion zone on our assets in mid-March, we have determined that approximately 2% of ATP 920 and 40% of ATP 924 fall within the exclusion boundary. Notably, this includes prospects such as Taj & Monte Carlo and, more significantly, Bobcat and Cheetah near Marengo South (see Figure 2).

Given the imposed changes and faced with losing the acreages within the LEB exclusion zone, the only path forward provided by government is to apply for a Petroleum Lease (PL) for the impacted areas before the government-imposed deadline of 30 August 2024. While submitting a PL application is seemingly premature at this stage, we have had wells that produced in the LEB exclusion zone such as Marengo South. That said, we are finalising a decision on whether to proceed with an application under these circumstances.

- ◆ In light of the delays to our renewal application approvals driven by changes announced by the Queensland Government regarding the Lake Eyre Basin (LEB) exclusion zone, Key Petroleum Limited requested an extension for the renewal of ATPs 920 and 924, seeking a term ending on 28 February 2026 for the areas outside of the LEB exclusion zone. However, Key was informed by government that as per the Petroleum and Gas (Production and Safety) Act 2004, the renewal cannot extend beyond 28 February 2025, marking the end of the twelfth year of the authorities. This includes high value prospects such as Alfajor.

Our strategy moving forward includes assessing the potential for higher forms of tenure for the unaffected portions of ATP 920 (98%) and ATP 924 (60%). We are considering applying for Potential Commercial Area (PCA) status for one or both of the ATPs over the coming weeks and will work with the Department of Resources in that regard.

- ◆ Despite the challenges posed by the LEB exclusion zone, Key Petroleum Limited remains committed and continues to seek adding to its portfolio. We are actively pursuing opportunities to add new high-quality assets to the Company. These efforts are aimed at boosting investor confidence and positioning Key Petroleum Limited for sustained growth and future cash flows.

Activities for the Upcoming Quarter

- ◆ Key Petroleum Limited will continue its discussions with the Department of Resources to adhere to regulatory policies with an eye towards applying for and securing a higher form of tenure within the aforementioned timeframes.
- ◆ Key Petroleum Limited will continue its discussions and negotiations to incorporate new assets into its portfolio. We are optimistic about the potential opportunities on the horizon and are dedicated to maximizing value for our shareholders.

Corporate and Current Outlook for Key

- ◆ At the end of the June 2024 quarter, the Company had A\$172,000 cash on hand.
- ◆ Available cash on hand (A\$172,000) provides sufficient funds to cover the cash requirements of the Company for both the Cooper Eromanga Basin assets and possible addition of new assets over the next quarters.
- ◆ During the quarter, the Company paid the amounts noted at Items 6.1 and 6.2 on the Appendix 5B, being payments of \$117,000 to related parties and their associates. This was the aggregate amount paid to the directors including directors' fees and consulting fees (\$80,000), and corporate administration and management fees (\$37,000).
- ◆ Total E&E expenditure for the quarter was \$3,000.
